Profile

Psychology student, research assistant, and accomplished aviation operations manager with a team-oriented approach to solving problems. Former aviation team leader and project coordinator with experience in cross-cultural, interdisciplinary cooperation.

Employment History

Feb 2024-October 2024

Student Assistant, RESPOND! Research Project

Managed project email account and conducted advertising and recruitment for research participants under the RESPOND! No to Antisemitism Research Project. Assisted Prof. Agata Kraj with in-person training seminars to educate young adults about the dangers of online hate speech and how to appropriately and effectively respond to it.

July 2023-January 2024

Research Assistant, Touro University Berlin

Berlin, Germany

Conducted literature research for the M.A. Holocaust Communication and Tolerance Program under the supervision of Prof. Dr. Stephan Lehnstaedt. Compiled documents, organized notes, and procured research literature for Prof. Dr. Lehnstaedt. Assisted in the development of 2 graduate-level courses through selection of relevant literature and other topic materials.

April 2021-July 2022

Company Operations Manager, United States Army

Seoul Air Base, Korea

Responsible for project management for a fleet of 30 helicopters. Managed and trained 4 team leaders and over 40 team members. Successfully coordinated over 500 man-hours of project work.

October 2018-April 2021

Helicopter Crew Chief, United States Army

Seoul Air Base, Korea

Supervised passengers and crew members during helicopter flight operations as a member of a multinational team with the Republic of Korea Air Force and the United States Army. Conducted over 191 incident-free flight hours and over 10 joint/multinational flight training missions.

June 2016-October 2018

Team Leader, United States Army

Fort Riley, Kansas, U.S.A.

Supervised, trained, and managed human resources for a small team of aviation technicians. Led team projects on a work-order basis and was responsible for the accountability of over \$20,000 worth of technical equipment. Responsible for the health, welfare, and professional development of a team of 5-10 junior technicians.
